

CDR exposure, measured and board-ready.

YOUR REALITY TODAY

An open-ended compliance liability is heading to your board — with no defensible number behind it, no evidence file, and costs that grow every time proof has to be reconstructed after the fact.

WHAT CHANGES WITH LENDER-WISE

✓ Board-ready reporting from your own templates

Word, Excel or PowerPoint — generated with prior-period comparison, ready for the pack.

✓ Exposure measured, not guessed

Readiness scored module by module, RAG-rated, every finding tied to a tested control.

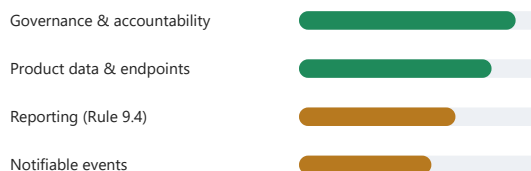

✓ Evidence that already exists

An append-only audit trail behind every figure — nothing reconstructed under pressure.

● Board pack — CDR readiness

READINESS BY MODULE

Prior-period comparison included

[Evidence attached · exportable](#)

Your board pack — your template, our evidence

SECURITY & TRUST BY DESIGN

- Australian-hosted — data stays onshore
- MFA on every account
- Encrypted end to end
- Append-only audit trail

Turn an open-ended liability into something measured, managed and defensible — a number you can stand behind in the boardroom.
