Lender-Wise
CDR COMPLIANCE · DATA HOLDERS

FOR THE HEAD OF RISK

Evidence on demand.
No surprises.

YOUR REALITY TODAY

When the ACCC asks “can you prove it?”, reconstructing evidence after the fact is slow, expensive — and unconvincing. A defensible position has to exist before the question is asked.

WHAT CHANGES WITH LENDER-WISE

✓ Every obligation tracked

A live register with owners, due dates and status — applicability driven by your CDR tier, kept current by change alerts.

✓ Rule 9.4 computed from evidence

Figures compute from content-hashed gateway evidence and lock as an immutable snapshot each half-year.

✓ An audit trail that can't be rewritten

Every decision recorded append-only — exportable, regulator-ready, always.

Obligation tracker Your CDR tier

OBLIGATION	OWNER	STATUS
Rule 9.4 half-year report	R. Walker	On track
Product data — v7 uplift	M. Chen	In progress
Notifiable events register	A. Patel	On track
Consumer data readiness	R. Walker	At risk

Evidence attached where it belongs · append-only audit behind every change

Know exactly where you stand — before anyone asks

SECURITY & TRUST BY DESIGN

- Australian-hosted — data stays onshore
- MFA on every account
- Encrypted end to end
- Append-only audit trail

Your readiness becomes something you can show, not just claim — with the evidence and audit trail to prove it.
